What do you think of Edison?

Thomas Edison was a boy from the USA. When he was at school, he asked his teacher a lot of questions.

“Why does he always have so many questions?” his teacher said to his mother, “He is not clever and he shouldn’t stay at school.”

So his mother had to take him home and teach him herself.

Little Edison read a lot of books and became very interested in science. And later he became a great scientist.
